- You will receive the SMS with your registration data within a few seconds after request.
- Tap the link in the SMS.

- 3** In the next step, you assign a password for the app and confirm this by re-entering it.
- Then select whether you want to open the app using TouchID or FaceID.

- 4** In the next step, enter your access data for online banking.

- 5** If you have received your initial access data for online banking from us, it is now necessary to change the PIN you have been given. Type in your new PIN and confirm by re-entering it.
